

Toray TOYOLAC ABS Resin Solutions

The world is growing more aware of the fact that sustainable materials are becoming increasingly necessary. Conventus Polymers is excited to add yet another innovative material to our broad portfolio: post-consumer recycled clear ABS! This material makes a great substitution for traditional transparent ABS or PC resins already on the market in areas such as personal care accessories and consumer products. By utilizing this, we are one step closer to a circular economy.

Post-Consumer Recycled TOYOLAC ABS

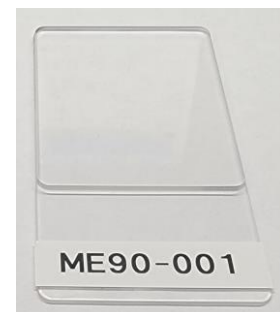

- Similar Properties to Virgin ABS
- 30% Recycled Material
- 83% Light Transmission
- Great Processability
- Lighter Than PC
- Transparent, Natural, and Black

We also offer a wide variety of non-PCR ABS resins that make great fits for countless applications.

Other Transparent TOYOLAC ABS Grades

- ISO 10993, USP Class VI, FDA Approvals
- Enhanced Chemical Resistance Options
- 86% Light Transmission
- Great Processability
- Lighter Than PC
- Also Available in Natural, Black, and Colors
